Professional Summary

Immediate joiner and **Java Full Stack Developer** with **3 years** of experience developing and deploying enterprise applications at **Cognizant** for clients like **VISA** and **NSDL**. Delivered **80+ production APIs** with **30%** performance improvement and **90%** test coverage across live environments. **Claude-certified developer** actively leveraging AI tools to improve development speed and code quality.

Technical Skills

Frontend: HTML, CSS, JavaScript, TypeScript, Angular

Backend: Java, Spring Boot, Spring Security, Hibernate, JPA, REST APIs, Microservices

Database & Tools: MySQL, Docker, Kubernetes, Jenkins, Git, Kafka, Postman, JUnit, CI/CD

AI & GenAI: Prompt Engineering, Context Engineering, GitHub Copilot, Amazon Q Developer, Claude Opus

Experience

Software Engineer, Cognizant – Bangalore October 2023 – Present

- Worked on enterprise applications including **Payment 1.0** and **BIN Lookup Service** for **VISA**, supporting payment flow implementation, security findings, and release support in the card and payments domain.
- Integrated third-party **AskNow APIs** using **WebClient** with asynchronous methods, reducing API response time by **30%** within a **microservices** architecture.
- Built and secured **REST APIs** using **JWT-based** authentication and **RBAC** to meet enterprise security and compliance requirements.
- Mentored junior developers, conducted code reviews, and worked closely with clients in **Agile (Scrum)** sprints to deliver high-quality releases on time.

Associate Software Engineer, 3E WebApps Pvt. Ltd. – Indore April 2023 – October 2023

- Developed backend and frontend modules using **Spring Boot** and **Angular**, integrated with **MySQL** databases.
- Assisted in bug fixes, wrote test cases, and supported feature delivery by collaborating closely with the development team.

Projects

OSM Migration Project (VISA) – Cognizant

- Migrated **80+ APIs** on schedule across **DEV**, **UAT**, and **PROD** environments, resolving major bugs and maintaining **90%** unit test coverage.
- Built **email notification services** to alert stakeholders on critical resource updates and approval workflows.
- Automated deployment pipelines using **Jenkins**, **Docker**, and **ArgoCD**, ensuring consistent and reliable releases across all environments.

Medicare – Pharmacy Management Application (*Academic Project*)

- Built a full stack pharmacy management app using **Spring Boot** and **Angular** with three role-based panels — Admin, Seller, and Customer — with admin-controlled seller verification workflow.
- Integrated an **expiry alert system** to notify sellers about medicines nearing expiry, reducing the risk of expired stock.

Education

M.Sc. Computer Science, Devi Ahilya Vishwavidyalaya, Indore July 2021 – June 2023

- CGPA: 8.4/10 | **Gold Medal** – First rank across DAVV University, awarded by President of India

B.Sc. Computer Science, Govt. Holkar Science College, Indore July 2018 – June 2021

- CGPA: 7.8/10

Certificates & Achievements

- **AWS AI Practitioner** – Amazon Web Services.
- **Claude Certified Developer** – Anthropic.
